3 easy ways to use Infinity

Infinity is a brilliantly designed system of tension fabric walls and panels that can be used individually or combined together to create distinctive custom looks. Thoughtfully engineered for portability and quick set-up, all walls and panels set-up without any tools in just minutes.

And for even more impact; lighting, monitors and stand-offs can be added. Infinity hands down provides the most economical solution for trade shows, events, or retail and business environments.

1- Ala Carte

Use individual walls or panels. Select the shape and size that best fits your show or event

2- Mix & Match

Choose whatever walls and panels that best fit your look and needs. With the ability to combine elements in numerous ways, customizing a design has never been easier.

3- Pre Designed

Select from a variety of eye-catching pre-designed concepts. All components are clearly identified to make ordering simple and quick.
